

# Jogo Behaviour Support has a unique combination of knowledge, skills, experience and competencies

Jogo Behaviour Support believes that the process of effective learning can be interrupted by mild, moderate or severe behaviours and they can undermine teaching, learning and achievement.

All our services are designed to:

- Build on the skills, knowledge and experience of staff
- Create sustainable solutions that increase capacity
- Be practical, solution focussed, meet the identified need and achieve the agreed outcomes
- Ensure effective use of budget and resources

The services provided include:

- Behaviour support to pupils 1:1, in class or part of a group intervention
- Whole School Support
- Family Support
- Therapeutic Support
- Training and Continued Professional Development
- Attendance and Welfare Support

All services can be accessed by sending a referral form to [referrals@jogobehavioursupport.com](mailto:referrals@jogobehavioursupport.com)

Jogo Behaviour Support can be commissioned by a school/organisation on an individual basis, or by a cluster, partnership or academy trust. There are a variety of Service Level Agreements available that offer discounted rates. Further information is available on request.

## Our services are designed to:

- Build on the skills, knowledge and experience of staff
- Create sustainable solutions
- Be practical, solution focussed and meet the identified need
- Ensure effective use of budget and resources using the appropriate provision, strategies and interventions.

## Our services provided can be broken down into six areas:-

### Behaviour Support for Pupils

Having received a referral, we will contact the school to make an appointment for an initial consultation with the relevant staff. Following an observation, we will prepare a comprehensive Recommendations Document to advise on clear strategies and interventions to implement. This will form the basis of a behaviour plan agreed by all parties at a feedback meeting where delivery will be agreed. We have successfully undertaken this process on hundreds of occasions in many diverse educational settings.

### Therapeutic Support

We offer a wide range of high quality therapeutic services. Our packages enable support that can be tailored to the individual needs of a child or family. We work closely with all the people involved in the child's or families' network, holding the needs of the child at the centre of all our practice.

### Training and Continuing Professional Development

We offer training and continued professional development on three levels.

**Level 1** Skill Sharing with staff as part of a support package following a referral. This can include 1:1 work, group work or whole class delivery.

**Level 2** Custom Made Training or bespoke training packages. These cover a wide variety of areas, full details can be found in our custom-made training booklet and our website.

**Level 3** We offer a variety of Open Courses for a range of practitioners. Jogo Behaviour Support courses have a theoretical basis, however the emphasis is about providing practical skills and strategies. Training details and booking information can be found in our course diary and on our website.

### Whole School Services

A range of whole school services are available to support the development and implementation of behaviour policy, working practices and processes.

These include:

- A Behaviour Health Check
- Behaviour Surgery
- Advice and guidance
- Staff coaching and mentoring
- Staff well-being supervision

### Attendance and Welfare Support

Regular school attendance has many benefits pupils. Non-attendance can have a significant impact on attainment and achievement. We aim to work closely with schools and with other agencies to promote, encourage and where necessary enforce regular school attendance of children of compulsory school age.

### Family Support

Jogo Behaviour Support's family support is an integrated service that is designed to strengthen parenting practices and the healthy development of children. Our service is

- Family driven
- Comprehensive, flexible and individualised to each family based on their culture, needs, values and preferences.
- It builds on strengths to increase the stability of family members and the family unit.
- It utilises informal and formal delivery models.

The aim is to

- Increase parent confidence and competence in their parenting abilities
- To enhance and strengthen relationships within the family

### “A confident parent equals a confident child.”

Our family support practitioners are highly experienced in supporting families whose children may be experiencing social, emotional, mental health and behavioural challenges.
