Custom Made Courses

Jogo Behaviour Support training courses provide you with practical solutions to manage social, emotional, mental health and behavioural issues presented by children and young people. The beauty of custom made courses is that we can design and deliver them to meet the needs of your staff/team.

Following an initial enquiry, we offer a free consultation to help identify what particular training might be appropriate. We will then offer a proposal of the course content and price for delivering the training with no obligation.

Our pricing is staggered depending on the number of delegates who will be attending as we aim to make the training accessible and affordable to any size organisation or team. We offer training at a time and place to suit your needs, including inset days, twilights, evenings or weekends.

Our courses can be adapted to meet your particular needs. Please contact us to discuss your requirements.
